Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

requirements set forth in PCT Article 33(1) because the subject matter of claim 1 does not comply with the requirement of novelty defined in PCT Article 33(2).

Document D1 describes (the abstract) a fluorescent composition containing phosphor particles dispersed in a matrix containing lithium silicate.

2.2 The present application does not fulfil the requirements set forth in PCT Article 33(1) because the subject matter of claim 1 does not comply with the requirement of novelty defined in PCT Article 33(2).

Document D2 describes (pages 2128-2130) a fluorescent composition containing zinc sulphide particles coated with a TEOS and SiO_2 composition.

2.3 The present application does not fulfil the requirements set forth in PCT Article 33(1) because the subject matter of claim 1 does not comply with the requirement of novelty defined in PCT Article 33(2).

Document D3 describes (the abstract) a composition containing a mixture of fluorescent particles and silicon alkoxide.

3. DEPENDENT CLAIMS 2-21

These claims do not contain any features which, in

International application No.
PCT/FR2004/001575

Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
	combination with the features of any one of the
	claims to which they refer, fulfil the PCT
	requirements of novelty and inventive step (PCT
	Article 33(2) and 33(3)).
